

Rotary™ 2SL

Herbicide

Formulation
Aqueous Solution

Active Ingredient
Isopropylamine salt of Imazapyr

Equivalent Brand
Chopper®, Stalker®

Case Pack / Pallet
2 x 2.5 gal / 36 cases
30 gal drum / 4 drums

Application Rates
See label for
specific uses and rates.

Mode of Action
Post-emergent by absorption
through foliage and roots

Signal Word
Caution

For the control of undesirable vegetation in forestry use sites managed for timber production, including forest roads and thinline basal and stem applications. Also for use on non-crop industrial sites and roadsides.

- ▶ Translocated into and kills roots and underground storage tissue in target weeds.
- ▶ Long application window – Spring to Fall.
- ▶ Cost effective site prep solution – provides broad spectrum, long-lasting control.
- ▶ Reduces competition for better seedling growth and development.
- ▶ When applied as an oil emulsion – cuticle wax is dissolved increasing herbicide absorption and enhancing effectiveness.

Partial List of Weeds & Vegetation Controlled

Grasses	Broadleaf weeds	Vines/Brambles	Woody Brush
Bahiagrass	Chickweed	Field Bindweed	Alder
