

Dryphosate 75SG

Introducing Dryphosate 75SG (High Load/Fully Loaded Dry Glyphosate Formulation)

Custom measuring cup available upon request.

Mixes readily with water to be applied as a foliar, non-selective herbicide spray for the control or destruction of most herbaceous & woody plants.

- 75.7% ammonium salt formulation
- Concentrated and easy to handle dry formulation
 - Reduces storage space by 50%
 - Reduces handling weight by 58%
- Dry yellowish extruded free-flowing granule forms a true soluble liquid solution.
- Contains both AMS and a surfactant.
- Easy-to-dispose dry formulation bags vs. empty jugs
- Useful tip: Product should be stored in a dry sealed container.
- Use areas: Railroad, Range & Pasture, Industrial, Forestry, Turf & Ornamental, Roundup Ready® crops.

*Roundup Ready® is a registered trademark of Monsanto Co.

Compare the Facts

Packaging

- 11 lb. bags
- 2 bags per box*
- 91 boxes per pallet**

*each box = 5 gal Gly 4+ (A.E.)

**each pallet = 455 gal. liquid (A.E.)

Use Tips

- 1.1 lb = 1 Quart Glyphosate 4+ liquid (A.E.)
- Should be stored in a dry sealed container
- 2.2 lb. Custom measuring cup available upon request.

Product Comparison	Gly 4+	Gly 5.4	Dryphosate
Formulation	Liquid	Liquid	Dry
Contains Surfactant	Yes	No	Yes
Contains AMS	No	No	Yes
Jug Triple Rinsing Required	Yes	Yes	No
Acres Treated Per 1000 CU Ft Storage Space (1 Qt. Rate)	12,832	12,832	24,570

A Customer Says...

"Dryphosate mixed very well. We put it out at a 1 gallon equivalent per acre of Glyphosate 4, mixed with 24 oz Alligare Imazapyr 4SL + 16 oz. Alligare 90 at 15 GPA. We had no issues at all. After visiting the tract 60 days later, the brown out was typical of a liquid." -Shaun Harris, B&S Air
