# PRODUCT GUIDE

**TRANSPORTATION & ENERGY**

Integrated vegetation management is essential for the protection of infrastructure assets and the maintenance of clear rights-of-way. Alligare offers solutions that aid in improving logistics, generating and delivering energy, and providing safety for workers and the traveling public.

**ANNUAL BROADLEAF WEEDS**

**ANNUAL GRASSES**

**BRUSH CONTROL**

**PERENNIAL GRASSES**

**NOXIOUS WEEDS**

**PERENNIAL BROADLEAF WEEDS**

RECOMMENDED SOLUTION	PERFORMANCE HIGHLIGHTS	USES
<b>NEW</b> <b>BALLAST™</b> Imazapyr Flumioxazin	This solution is a non-selective, dual-action, and bare-ground herbicide that is ideal for industrial facilities, railroads, oil and gas installations, and other sites where bare-ground results are required.	
<b>CHLORSULFURON 75</b> Chlorsulfuron	A highly selective, low-use herbicide that is an outstanding choice to control a wide range of annual, biennial, and perennial broadleaf weeds.	
<b>ECOMAZAPYR</b> Imazapyr	Broad spectrum control of 185 annual, biennial, and perennial weeds and brush provides outstanding control of emerged and floating vegetation in aquatic environments—an excellent option for individual plant treatments in sensitive areas.	
<b>HYVAR</b> Bromacil	With best-in-class residual activity, this solution is the backbone of bare-ground tank mix programs for control of deep-rooted perennial grass and broadleaf weeds.	
<b>KROVAR IVM</b> Bromacil Diuron	A reliable, bare-ground solution that contains two hard-hitting active ingredients and controls a wide range of annual and perennial broadleaf weeds, grasses, and brush. This long-lasting residual can provide season-long control and may be used as a program base or standalone product.	
<b>NEW</b> <b>MAINLINE™</b> Flumioxazin Imazapic	This new, dual-action herbicide option for vegetation managers provides flexible options around sensitive areas. Sites can be treated selectively at low rates or for total vegetation control at higher labeled rates.	
<b>MOJAVE 70 EG</b> Imazapyr Diuron	This solution provides vegetation managers convenience and confidence with total vegetation control, in one bag, for bare-ground applications.	
<b>PANORAMIC 2SL</b> Imazapic	This solution has excellent results on many annual grass species and possesses pre- and post-emergent control of annual, biennial, and perennial broadleaves. Apply at low use rates for foliar and seedhead suppression of unimproved Bahiagrass and tolerant cool season grasses.	
<b>NEW</b> <b>PASSAGE™</b> Sulfentrazone	Versatile and persistent, this solution provides extended, residual control of many broadleaf weeds, annual grasses, and sedges in a variety of settings.	
<b>WHETSTONE™</b> Aminopyralid	Selective weed control for noxious and invasive plants with tolerance for sensitive grasses, this solution fits a tremendous range of use sites, including non-crop areas such as roadsides and rights-of-way, natural areas, and range and pastureland.
