

TRIUMPH 22K

ALLIGARE.COM

LET GRASS GROW WITH FLEXIBLE, SYSTEMIC CONTROL OF WOODY PLANTS AND BROADLEAF WEEDS

Keep your grass while removing unwanted vegetation, with Alligare's Triumph 22K. This selective herbicide sets the standard in invasive and noxious weed control.

PERFORMANCE HIGHLIGHTS

- Long-lasting residual on a multitude of use sites
- Absorbed by foliage and roots in broadleaf and woody weeds
- Excellent on perennial invasive broadleaf weeds and brush
- Safe on desirable grasses and offers flexible rates for selectivity in your weed control programs

FOR BEST RESULTS

1. Apply at the optimum growth stage.
2. For best results use a high-quality agriculture surfactant.
3. Spray tank solutions should maintain a pH of 5-7.
4. Applications should take place when soil temperatures are above 55°F

USE SITES

- rangeland
- permanent grass pastures
- CRP areas
- wildlife management areas
- rights-of-way
- fallow cropland
- railroads
- forest planting sites

Ragweed
Leafy Spurge

BROADCAST MIXING INSTRUCTIONS

1. Add ½ of the required spray volume to the spray tank and start agitation.
2. Add the required amount of Alligare Triumph 22K herbicide.
3. If tank mixing this product with other labeled herbicides, add water-soluble formulations first, followed by dry formulations, flowables, emulsifiable concentrates, and then solutions.
4. Add any additional surfactants.
5. Fill the tank with the remaining amount of water while continuing the agitation

NOTE: Triumph 22K is a restricted-use herbicide with a long residual. Do not apply in areas that will be planted in a broadleaf crop in the near future or in areas where desirable tree roots are exposed.
