PRODUCT GUIDE

FORESTRY

Controlling undergrowth is key to forest health and productivity. From site preparation to stand management, Alligare provides the required solutions to manage forest vegetation and promote growth.

**SITE
PREPARATION**

**CONIFER
RELEASE**

RECOMMENDED SOLUTION	PERFORMANCE HIGHLIGHTS	USES
BOULDER 6.3 Triclopyr BEE	This solution provides a high-performance, high-load formulation for the control of woody plants as well as annual and perennial broadleaf weeds in Forestry. Boulder is an excellent choice to control herbaceous weeds and brush during site preparation.	
IMAZAPYR 4 SL Imazapyr	With non-selective control of undesirable vegetation in timber production sites, Imazapyr 4 SL maximizes the control spectrum for woody and herbaceous species for site preparation and conifer release applications.	 
MSM 60 Metsulfuron methyl	This time tested solution provides control of vines, and herbaceous weeds in a wide variety of forestry sites for your site prep and conifer release programs.	 
ROTARY 2 SL Imazapyr	A proprietary formulation of Imazapyr for site prep and conifer release applications. Extends the application window from spring through fall with excellent control of woody and herbaceous species.	 
SFM 75 Sulfometuron methyl	Designed for post-emergent broadleaf weed control in non-crop industrial sites, forestry, and effective vegetation control around roadsides and railroads.	 
SFM EXTRA Sulfometuron methyl, Metsulfuron methyl	For use in conifer plantations and non-crop sites for the control of many annual and perennial grasses and broadleaf weeds. Best results are obtained when application is made before the root system is established.	 
SONORA™ Clopyralid	For many of your forestry species Sonora offers over the top applications to provide your most demanding sites quality control of problematic thistles, knapweed, and kudzu, in addition to 55 other broadleaf weeds, woody brush, or vines controlled	

ESSENTIAL FORESTRY PRODUCTS

PRODUCT	ACTIVE INGREDIENT	MARKETS
2,4-D AMINE	2,4-D Amine	   
2,4-D LV 6	2,4-D Ester	  
FLAGSTAFF	Fluroxypyr	 
FLUMIGARD SC	Flumioxazin	 
TRICLOPYR 4 EC	Triclopyr	  
TRICLOPYR RTU	Triclopyr	  
TRIUMPH 22K	Picloram	  
TRIUMPH RTU	Picloram , 2,4-D
