

GUNSLINGER[®] P+D

ALLIGARE.COM

ENHANCE FORAGE PRODUCTION WITH THIS SEASON-LONG, SELECTIVE HERBICIDE

Designed for grazing spaces, Alligare's Gunslinger P+D can be used on desirable grasses while controlling challenging weeds and brush.

PERFORMANCE HIGHLIGHTS

- Proven, long-lasting weed and brush control
- Compatible for mixing with liquid fertilizer
- Prevents encroaching brush and many annual and perennial weeds
- No grazing restrictions except for lactating dairy animals
- Can be used on Bahia, fescue, bluegrass, orchardgrass, bromegrass, Bermuda, and native grasses

FOR BEST RESULTS

1. Apply to young, actively growing weeds.
2. Apply with a high-quality non-ionic surfactant.
3. Use a higher rate when weeds are mature.

USE SITES

- rangeland
- permanent grass pastures
- CRP acres
- wildlife management areas
- non-irrigation ditch banks
- grazed areas in and around non-crop sites
- rights-of-ways
- forest planting sites

Scotch thistle
Snow-on-the-mountain
Henbit
Dandelion (common)
McCartney rose

MIXING INSTRUCTIONS

1. Add ½ of the required spray volume to the spray tank and start agitation.
2. Add the required amount of Alligare Gunslinger P+D herbicide.
3. If tank mixing this product with other labeled herbicides, add water soluble formulations first, followed by dry formulations, flowables, emulsifiable concentrates, and then solutions.
4. Add any additional surfactants.
5. Agitate during the final filling of the spray tank, and maintain sufficient agitation during application, to ensure uniformity of the spray mixture.

NOTE: Gunslinger P+D is a federally restricted herbicide. This product has a long residual; do not apply in areas that will be planted in broadleaf crops. Please refer to the label for plant back restrictions on crops.

ALWAYS READ AND FOLLOW LABEL INSTRUCTIONS
