

MSM 60

ALLIGARE.COM

PROVEN, RELIABLE PERFORMANCE AND QUALITY VEGETATION CONTROL

Driven by dependability, Alligare's MSM 60 herbicide offers standalone control of over 100 species of broadleaf weeds and brush while maintaining unrivaled tank-mix-partner results.

PERFORMANCE HIGHLIGHTS

- Provides selectivity in cool-season grasses and Bermuda grass pastures
- Multiple modes of action aid in broad-spectrum tank mix activity
- Post-emergent broadleaf weed control in non-crop industrial sites
- Pre-emergent control when applied at emergence or dormancy break
- Economical with required low use rates
- Largest broadleaf weed spectrum of any ALS herbicide

FOR BEST RESULTS

1. Treat weeds that are young, actively growing, and not drought stressed.
2. Apply with a non-ionic surfactant containing at least 80 percent active ingredient.
3. Ensure adequate coverage during application.

USE SITES

- rangeland
- permanent grass pastures
- non-crop industrial sites
- forestry sites
- roadsides
- conifer plantations
- railroads
- utility rights-of-way

MSM 60

ACTIVE INGREDIENT: METSULFURON METHYL

TARGETED WEEDS

Sowthistle (annual)	Bahiagrass	Chicory	Clover
Chickweed (common)	Dandelion	Dewberry	Marestail/horseweed
Miner's lettuce	Blackberry	Plantain	Prostrate knotweed
Poison hemlock	Kochia	Redroot pigweed	Shepherd's purse
Bull thistle	Henbit	Perennial pepperweed	Black locust
Kudzu	Dogfennel	Goldenrod	Sericea lespedeza

BROADCAST MIXING INSTRUCTIONS

1. Fill the tank 1/4 to 1/3 full of water.
2. While agitating, add the required amount of Alligare MSM 60.
3. Continue agitation until the Alligare MSM 60 is fully dispersed.
4. Maintain agitation and continue filling the tank with water.
5. As the tank is filling, add tank mix partners (if desired) then add the necessary volume of nonionic surfactant. Always add surfactant last.
6. If the mixture is not continuously agitated, settling will occur. If settling occurs, thoroughly re-agitate before using.

Note: MSM 60 will cause injury to Bahiagrass and fescue forage in pasture settings. Do not apply MSM 60 in areas where injury cannot be tolerated.

ALWAYS READ AND FOLLOW LABEL INSTRUCTIONS

SIGNAL WORD

CAUTION

APPLICATION DETAILS

MOA Group 2, ALS Inhibitor
See label for specific rates and application instructions

WORKER SAFETY

chemical-resistant, waterproof gloves
long-sleeved shirt and long pants
shoes plus socks
