

BROMACIL/ DIURON 40/40

ALLIGARE.COM

KNOCKOUT CHALLENGING OPPONENTS QUICKLY WITH THIS POWERFUL PRODUCT IN YOUR CORNER

Alligare's Bromacil/Diuron 40/40 herbicide provides proven, season-long control of annual and perennial grasses and broadleaf weeds.

PERFORMANCE HIGHLIGHTS

- Consistent, historically proven performance
- Tough on challenging annual and perennial weeds
- Provides long-lasting residual control
- Can be used under asphalt and other paved areas

FOR BEST RESULTS

1. Apply to moist soil or soil that has received precipitation within two weeks of application.
2. Applications should be made prior to weed germination.

USE SITES

- utility plant sites
- petroleum tank farms
- pumping installations
- roadsides and rights-of-way
- fence rows
- pipelines
- railroads
- storage areas

MIXING INSTRUCTIONS

1. Fill the tank 1/4 to 1/3 full of water.
2. While agitating, add the required amount of Bromacil/Diuron 40/40.
3. Continue agitation until the herbicide is fully dispersed.
4. Maintain agitation and continue filling the tank with water.
5. Add any tank mix partners (if desired), followed by the necessary volume of spray adjuvant.

NOTE: If the mixture is not continuously agitated, settling may occur. If settling occurs, thoroughly re-agitate before using.

ALWAYS READ AND FOLLOW LABEL INSTRUCTIONS
