

THIS HERBICIDE PROVIDES A POWERFUL TWO-WAY PUNCH FOR SYSTEMIC CONTROL OF THE MOST CHALLENGING SPECIES AND UNDESIRABLE BROADLEAF WEEDS

Alligare's Grassmaster is a post-emergent, selective herbicide that is absorbed by the leaves and roots and used to remove troublesome vegetation.

PERFORMANCE HIGHLIGHTS

- Broad spectrum weed control
- Fast acting results with residual activity and no compost or manure restrictions
- Ability to apply as a stand-alone treatment or mix with liquid fertilizer

FOR BEST RESULTS

- 1. Apply to young, actively growing weeds.
- 2. Use a high-quality surfactant.
- 3. Ensure adequate coverage of target weeds by applying a total spray volume of 3-20 gallons per acre depending on the application method.

USE SITES

- CRP areas
- ditch banks
- industrial sites
- pastures
- non-crop areas
- railroads
- pipelines
- rangeland
- rights-of-way
- roadsides

GRASSMASTER

ACTIVE INGREDIENTS: DICAMBA - 1 LB/GAL / 2,4-D - 2.87 LB/GAL

TARGETED WEEDS

Palmer amaranth Spotted beebalm Buffalo bur Wild buckwheat

Broomweed Cocklebur

Woolly croton Devil's claw Evening primrose

Fleabane (annual)

Henbit Kochia Mallow (common) Marshelder

Mustards (annual) Tansy mustard Black nightshade Puncturevine

Poorjoe

Ragweed (common) Ragweed (western) Purslane (common)

Smartweed

Bitter sneezeweed

MIXING INSTRUCTIONS

- 1. Add ½ of the required spray volume to the spray tank and start agitation.
- 2. Add the required amount of Alligare Grassmaster.
- 3. If tank mixing this product with other labeled herbicides, add dry formulations first, followed by Grassmaster and other liquid flowables, then emulsifiable concentrates.
- 4. Add any additional surfactants or adjuvants.
- 5. Agitate during the final filling of the spray tank, and maintain sufficient agitation during application, to ensure uniformity of the spray mixture.

Note: Grassmaster herbicide is an unrestricted-use product; however, in the states of Texas and Arkansas 2,4-D is a state-limited-use herbicide requiring an applicator license to purchase the product.

ALWAYS READ AND FOLLOW LABEL INSTRUCTIONS

SIGNAL WORD

DANGER

APPLICATION DETAILS

MOA Group 4, Synthetic Auxins COMMON USE RATE 16-32 oz. per acre See label for site and application specifics.

WORKER SAFETY

chemical-resistant apron when mixing, loading, cleaning up spills or equipment, or otherwise exposed to the concentrate

long-sleeved shirt and long pants

shoes and socks chemical resistant gloves goggles or face shield
