

TRICLOPYR 4

ALLIGARE.COM

BROAD SPECTRUM CONTROL OF SELECT WOODY BRUSH AND BROADLEAF WEEDS

Alligare's Triclopyr 4 is a year-round, selective herbicide with flexible application options and proven results on tough-to-control species.

PERFORMANCE HIGHLIGHTS

- Can be applied via broadcast application or using a variety of individual plant treatment (IPT) methods
- Excellent choice for forestry site preparation applications
- Works well as a stand-alone product or as a tank mix partner

FOR BEST RESULTS

1. For foliar applications, apply to actively growing plants.
2. Use an approved surfactant. Surfactant type varies depending on the application. See label for details. .
3. Follow proper tank mixing instructions per the Alligare Triclopyr 4 label.

USE SITES

- Conservation Reserve Program (CRP) areas
- grass pastures
- forestry sites
- Industrial sites
- non-irrigation ditch banks
- rangeland
- rights-of-way
- ornamental turf

Tropical soda apple

Mustard
Blackberry
Creeping beggarweed
Tan oak
Virginia creeper
Multiflora rose

Purple loosestrife
Alder
Plantain
Salmonberry
Yucca
Buckbrush

MIXING INSTRUCTIONS

1. Add ½ of the required spray volume to the spray tank and start agitation.
2. If tank mixing this product with other labeled herbicides, add dry formulations first, followed by liquid flowables, and then Alligare Triclopyr 4 and other emulsifiable concentrates.
3. Add any additional surfactants.
4. Agitate during the final filling of the spray tank, and maintain sufficient agitation during the application, to ensure uniformity of the spray mixture.

NOTE: When tank mixing, refer to the individual product labels for precautionary statements, restrictions, application rates, approved uses, and a list of weeds and woody plants controlled.

ALWAYS READ AND FOLLOW LABEL INSTRUCTIONS

SIGNAL WORD

CAUTION

APPLICATION DETAILS

MOA Group 4 Synthetic Auxins See label for specific site and species application rates.

WORKER SAFETY

long-sleeved shirt and long pants
chemical-resistant gloves
shoes plus socks
